

CORPORATE BROCHURE

TRADE ENERGY & SERVICES CO.

The technical bridge between the world's top-tier manufacturers and the Oil & Gas, Energy, and Technology operators of Latin America.

MIAMI, FL — USA

OIL & GAS · ENERGY · TECHNOLOGY

WHO WE ARE

A TECHNICAL BRIDGE BETWEEN TIER-1 MANUFACTURERS AND LATIN AMERICAN OPERATORS

TESCO is a US-based international trade and technical services company headquartered in Miami, Florida, closing the gap between world-class global manufacturers and the operators, contractors, and industrial buyers of the Oil & Gas, Energy, and Technology sectors.

Leveraging Miami's role as the principal gateway between North America and Latin America, we manage the full asset lifecycle of a sourcing decision, from technical specification and vendor selection through procurement, customs nationalization, and field support during commissioning.

OUR MISSION

Guarantee the operational continuity and technical success of our clients by strategically sourcing advanced materials, industrial equipment, and technology from recognized Tier-1 manufacturers — delivered with responsibility, speed, and technical rigor.

THE MIAMI GATEWAY

Principal commercial, logistical, and financial corridor into Latin America.

OUR VISION

"TO BE THE LEADING GLOBAL SUPPLY CHAIN PARTNER FOR CRITICAL INFRASTRUCTURE INDUSTRIES — THE INDISPENSABLE STRATEGIC BRIDGE THROUGH WHICH INTERNATIONAL INNOVATION REACHES THE INDUSTRIES THAT POWER AND BUILD THE MODERN ECONOMY."

CORPORATE VALUES

RELIABILITY & ACCOUNTABILITY

Every engagement treated as a contractual obligation to client uptime.

AGILITY & VENDOR PROXIMITY

Direct manufacturer relationships enable fast, flexible sourcing response.

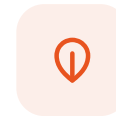

TECHNICAL EXCELLENCE & QA

Certifications and traceability verified before any equipment ships.

GLOBAL REACH, LOCAL EXECUTION

Vendor ecosystems connected to buyers through end-to-end execution.

PEOPLE & ENVIRONMENT

Solutions compatible with environmental preservation and workforce safety.

OUR SERVICES

FOUR PILLARS OF END-TO-END SUPPLY EXECUTION

PROCUREMENT & GLOBAL SOURCING

Electrical, instrumentation & mechanical equipment, and specialty materials — one point of accountability from spec to verification.

IMPORT/EXPORT LOGISTICS & COMPLIANCE

Full customs nationalization, documentation, and trade compliance moving equipment from North America, Asia, and Europe into Latin America.

STRATEGIC VENDOR MANAGEMENT

Ongoing technical dialogue with manufacturers and structured qualification of new suppliers before they enter a client's supply chain.

TECHNICAL CONSULTING & INTEGRATION

Engineering, project management, and field support for chemical application, flow-meter solutions, and start-up control integration.
